SKI INDUSTRIES

IN OUR 15 YEARS IN BUSINESS, BRENDLE GROUP HAS COMPLETED HUNDREDS OF SUSTAINABILITY PROJECTS AND ASSESSMENTS FOR A WIDE RANGE OF CLIENTS.

We have developed sustainability management systems and plans for governments and businesses, measured systematic and site-specific greenhouse gas emissions and developed climate action plans, helped clients reduce their energy and water use and contributed to leading edge sustainable design projects.

Our clients range from federal and state government agencies to cities, counties, utilities, multi-stakeholder groups, non-profit organizations, industry associations and businesses. We're known for our ability to form strategic partnerships and collaborations to tackle projects of any size, working with clients nationwide.

# Engineering sustainable change.

BRENDLE GROUP IS AN ENVIRONMENTALLY FOCUSED ENGINEERING CONSULTING FIRM THAT LEADS BY EXAMPLE, inspiring and empowering organizations to make thoughtful choices about the resources they use and helping them create realistic road maps for sustainability.

Founded in Fort Collins, Colorado in 1996, Brendle Group serves as a consultant for clients nationwide, leveraging the strength of what its clients do well with their sincere desire to do more for people, profit, and planet.

“We highly value their innovation, technical expertise, and dedication to high quality work.”

## Climate Services

A changing climate poses risks and opportunities for businesses, governments, organizations, and institutions.

**RIISING ENERGY COSTS**, effects of a changing climate, and impending regulations on greenhouse gas emissions have placed the issue of climate change at the forefront for many of our clients. Brendle Group consults with clients and helps them navigate the complex issue of greenhouse gas emissions and climate change. Our climate services include:

- Greenhouse gas inventories
- Climate action plans
- Climate adaptation planning
- Benchmarking
- Visions, goals, and strategies
- Facilitation and community involvement
- Implementation and performance monitoring

### GREENHOUSE GAS INVENTORIES

Using established industry protocols tailored to the specific needs of our clients, we perform greenhouse gas inventories for governments, the education sector, the tourism and ski industries, private companies, and others, helping pinpoint the greatest emission sources. We are well versed in the following inventory methodologies, guidelines, and protocols:

- Clean Air-Cool Planet
- Intergovernmental Panel on Climate Change
- Local Governments for Sustainability (ICLEI)
- World Resources Institute Greenhouse Gas Protocol
- ISO 14064
- The Climate Registry

### CLIMATE ACTION PLANNING AND IMPLEMENTATION

Beyond inventories, Brendle Group supports clients in developing climate action plans and strategies for reducing emissions, designing and implementing climate programs and developing long-term approaches for achieving climate neutrality. Our engineers and planners target cost-effective opportunities for reducing overall energy consumption and develop strategies for using renewable energy. We also identify other areas for reductions, including transportation, solid waste, and water. Finally, we work with clients to ensure that well-intentioned plans actually get implemented and their outcomes monitored.

### EXAMPLE PROJECTS

- Bennington College Climate Action Plan, Vermont
- Salt Lake City, Utah Community Greenhouse Gas Inventory
- Jackson Hole Mountain Resort Climate Reduction Strategies, Wyoming
- Creighton University Greenhouse Gas Inventory, Nebraska
- Colorado State University Climate Action Plan
- Park City, Utah Community Carbon Inventory and Roadmap for Reducing Emissions
- La Plata County, Colorado Greenhouse Gas Inventory
- Grand Targhee Resort Greenhouse Gas Inventory, Wyoming
- City of Fort Collins, Colorado Climate Wise Program and Climate Task Force
- Colorado College Greenhouse Gas Inventory and Climate Neutral Plan
- Climate Action Panel of the Colorado Climate Project
