SKI INDUSTRIES

IN OUR 15 YEARS IN BUSINESS, BRENDLE GROUP HAS COMPLETED HUNDREDS OF SUSTAINABILITY PROJECTS AND ASSESSMENTS FOR A WIDE RANGE OF CLIENTS.

We have developed sustainability management systems and plans for governments and businesses, measured systematic and site-specific greenhouse gas emissions and developed climate action plans, helped clients reduce their energy and water use and contributed to leading edge sustainable design projects.

Our clients range from federal and state government agencies to cities, counties, utilities, multi-stakeholder groups, non-profit organizations, industry associations and businesses. We're known for our ability to form strategic partnerships and collaborations to tackle projects of any size, working with clients nationwide.

Engineering sustainable change.

BRENDLE GROUP IS AN ENVIRONMENTALLY FOCUSED ENGINEERING CONSULTING FIRM THAT LEADS BY EXAMPLE, inspiring and empowering organizations to make thoughtful choices about the resources they use and helping them create realistic road maps for sustainability.

Founded in Fort Collins, Colorado in 1996, Brendle Group serves as a consultant for clients nationwide, leveraging the strength of what its clients do well with their sincere desire to do more for people, profit, and planet.

“Brendle Group helped us define actionable strategies for consistently greater performance.”

Sustainability Management and Planning

Create a sustainability vision along with goals, strategies, and a plan of action.

WHETHER YOU ARE STARTING FROM SQUARE ONE or are far down the road in your sustainability initiatives, Brendle Group can help you get to the next level. We do this by taking stock of your existing footprint and practices; developing metrics to measure your success; benchmarking your progress against your peers; and helping you create a sustainability vision along with goals, strategies, and a plan of action. Our expertise in facilitating staff training and organizational change also means that the success of your sustainability strategy will endure long after our work is done.

SUSTAINABILITY INVENTORIES AND BENCHMARKING

Brendle Group’s engineers and planners will help you take stock of your sustainability progress and practices with targeted inventories of resource use and greenhouse gas inventories, documentation of current practices, and benchmarking against peer organizations.

SUSTAINABILITY MANAGEMENT PLANS

Using a facilitated, inclusive process, Brendle Group’s planners, engineers, and facilitators help governments, education institutions, companies, and organizations develop sustainability visions and goals, quantify strategies, target funding, and create a path to implementation through a unified sustainability plan or system.

INTEGRATED SUSTAINABILITY STRATEGIES

We help communities integrate sustainability into their planning processes and codes, as well as lead development of industry-level sustainability initiatives, from sustainability charters and best practices guidance to member incentive programs.

IMPLEMENTATION AND MONITORING

By helping develop specific implementation plans and performance metrics, we help clients make sure their plans translate to tangible action on the ground.
