IN OUR 15 YEARS IN BUSINESS, BRENDLE GROUP HAS COMPLETED HUNDREDS OF SUSTAINABILITY PROJECTS AND ASSESSMENTS FOR A WIDE RANGE OF CLIENTS.

We have developed sustainability management systems and plans for governments and businesses, measured systematic and site-specific greenhouse gas emissions and developed climate action plans, helped clients reduce their energy and water use and contributed to leading edge sustainable design projects.

Our clients range from federal and state government agencies to cities, counties, and utilities, multi-stakeholder groups, non-profit organizations, industry associations and businesses. We're known for our ability to form strategic partnerships and collaborations to tackle projects of any size, working with clients nationwide.

# Engineering sustainable change.

BRENDLE GROUP IS AN ENVIRONMENTALLY FOCUSED ENGINEERING CONSULTING FIRM THAT LEADS BY EXAMPLE, inspiring and empowering organizations to make thoughtful choices about the resources they use and helping them create realistic road maps for sustainability.

Founded in Fort Collins, Colorado in 1996, Brendle Group serves as a consultant for clients nationwide, leveraging the strength of what its clients do well with their sincere desire to do more for people, profit, and planet.

“Brendle Group was so much more than just a consultant.”

# Sustainable Design

Realize the full potential of healthy, high performing places.

**COMMUNITIES GREATLY BENEFIT** from sustainable design, from healthy homes to energy efficient, productive work places. Brendle Group serves as advocate and sustainability general contractor for new buildings and developments. Our team of LEED accredited professionals, energy managers, planners, and engineers assists clients throughout the design process, from initial project feasibility to construction management. Our sustainable design services include:

## BUILDING-LEVEL DESIGN ASSISTANCE

Brendle Group brings sustainability to every aspect of new building design and renovations:

- Energy modeling
- Energy efficiency
- Renewable energy applications
- Efficient building and irrigation water use
- Low toxicity, reused, recycled, local, and rapidly renewable materials
- On-site construction recycling opportunities
- LEED certification

## MASTER PLAN-LEVEL DESIGN ASSISTANCE

At the master plan level, Brendle Group:

- Conducts community-based and project team design charrettes
- Evaluates site-level energy systems and net-zero energy opportunities
- Assists with emerging options in renewable energy and district heating/cooling
- Evaluates raw water irrigation systems and low-impact development

## PROJECT FUNDING AND IMPLEMENTATION

Brendle Group helps clients:

- Coordinate with applicable utilities to target federal and state tax incentives and rebates
- Pursue other funding sources and strategic partnerships to spread financial risks
- Assist in soliciting and evaluating construction bids
- Offer marketing and public relations support to share project success
