IN OUR 15 YEARS IN BUSINESS, BRENDLE GROUP HAS COMPLETED HUNDREDS OF SUSTAINABILITY PROJECTS AND ASSESSMENTS FOR A WIDE RANGE OF CLIENTS.

We have developed sustainability management systems and plans for governments and businesses, measured systematic and site-specific greenhouse gas emissions and developed climate action plans, helped clients reduce their energy and water use and contributed to leading edge sustainable design projects.

Our clients range from federal and state government agencies to cities, counties, utilities, multi-stakeholder groups, non-profit organizations, industry associations and businesses. We're known for our ability to form strategic partnerships and collaborations to tackle projects of any size, working with clients nationwide.

Engineering sustainable change.

BRENDLE GROUP IS AN ENVIRONMENTALLY FOCUSED ENGINEERING CONSULTING FIRM THAT LEADS BY EXAMPLE, inspiring and empowering organizations to make thoughtful choices about the resources they use and helping them create realistic road maps for sustainability.

Founded in Fort Collins, Colorado in 1996, Brendle Group serves as a consultant for clients nationwide, leveraging the strength of what its clients do well with their sincere desire to do more for people, profit, and planet.

“Brendle Group is a model of the 21st century business.”

Tourism and Ski Industries

Use resources more efficiently. Confront climate change and manage risks. Integrate sustainability throughout your organization.

BRENDELE GROUP helps the tourism and ski industries navigate a unique set of challenges in a changing world. Whether you're an existing sustainability leader or just beginning down the road toward sustainability, Brendle Group can help you on your journey. Our services for the tourism and ski industries include:

SUSTAINABILITY PLANNING AND STRATEGY DEVELOPMENT We help drive top-down change through company, organization, and industry-level sustainability initiatives and plans while building bottom-up support through targeted, quantifiable sustainability strategies.

ENERGY EFFICIENCY AND RENEWABLE ENERGY FEASIBILITY STUDIES We assess energy options; conduct evaluations of operations; and help integrate energy efficiency, renewable energy, and smart grid strategies.

GREEN BUILDING DESIGN SUPPORT Our engineers and LEED-accredited professionals help evaluate sustainable design options, both in new construction and renovation projects and at the building and master plan level.

WATER ASSESSMENTS AND FOOTPRINTING We identify cost-saving water efficiency strategies, develop water conservation plans, provide implementation support, and target funding.

GREENHOUSE GAS MITIGATION AND ADAPTATION We'll help you develop a wide array of climate strategies utilizing our engineering and planning expertise to mitigate impacts and build your resiliency to a changing climate.

TRAINING AND WORKSHOP FACILITATION We support your sustainability efforts by training and motivating staff to implement effective change in your organization.

COMMUNICATIONS AND SUSTAINABILITY REPORTING We'll help share your story with external stakeholders and the broader community through strategic communications and sustainability reporting.
