

Position posting:

Energy Engineer

Brendle Group seeks an energy engineer for consulting projects related to both existing buildings and new building design assistance for commercial and residential customers. Execution on project deliverables and implementation support of energy programs are also required. The ability to understand and integrate energy services with customers' broader sustainability goals, including climate protection, is strongly desired.

Position Responsibilities

- Conduct resource efficiency (mainly energy plus water and waste) assessments for a variety of commercial customers, identify and develop efficiency opportunities
- Conduct engineering and climate impact calculations, perform cost-benefit analyses, etc.
- Support implementation, and/or execution of demand-side management programs for utility customers
- Effectively execute on various projects in coordination with senior staff and project managers
- Data collection, technical analysis, and reporting

Required Qualifications and Experience

- B.S. or equivalent in mechanical engineering or related discipline
- Coursework and ideally some experience in the disciplines of energy efficiency, water conservation, pollution prevention, and sustainable design
- Coursework, interest, and ideally some field experience with building energy (lighting and mechanical) and/or renewable energy systems
- Understanding of integrated building design processes and approaches
- Knowledge of PC-based software applications
- Strong verbal communication and writing skills

Preferred Qualifications and Experience

- Energy modeling experience
- Field experience in building water systems and related water conservation opportunities
- Desire to work towards a Professional Engineering license
- Desire to work towards a Certified Energy Manager (CEM)
- Desire to work towards a LEED™ accredited professional

Key Attributes:

- Self-motivated team player with enthusiasm for sustainability topics
- Adaptable and flexible to changes in deadlines and work focus
- Entrepreneurial attitude and creative thinker

- Strong focus on customer service through a pragmatic and common sense approach to client needs
- “Owns” position responsibilities and is able to effectively manage the time and resources needed to deliver them
- Coordinate and communicate with other staff to most efficiently utilize available resources and time of a small company
- Willingness to seek feedback

Salary and Benefits

The Brendle Group, Inc. offers a competitive salary and benefits package, including:

- Salary commensurate with experience
- Employer paid health and dental insurance
- SIMPLE plan with employer matching
- Flex-time and telecommuting benefits
- Bonus program and other incentives for high performance

Other Benefits:

- Small but growing company with a positive and relaxed office environment
- Based in Fort Collins, Colorado, recently voted as #1 place to live by *Money* magazine
- Flexible and family friendly company
- Located in a dynamic region for clean energy development, with opportunities for involvement in local clean energy cluster projects, such as FortZED, the creation of a zero energy district in Fort Collins

About Brendle Group
